Independent Auditor's Report

Board of Directors Harris County Municipal Utility District No. 419 Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No. 419 (the District), as of and for the year ended May 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of May 31, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance

and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors Harris County Municipal Utility District No. 419 Page 3

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

FORVIS, LLP

Houston, Texas October 10, 2023

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and other information required by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's total assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's total assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	 2023	2022
Current and other assets	\$ 24,411,018	\$ 21,351,907
Capital assets	 63,120,281	 65,717,090
Total assets	 87,531,299	 87,068,997
Deferred outflows of resources	 2,993,776	 3,171,481
Total assets and deferred outflows		
of resources	\$ 90,525,075	\$ 90,240,478
Long-term liabilities	\$ 132,080,224	\$ 137,949,780
Other liabilities	 2,150,366	 2,174,452
Total liabilities	 134,230,590	 140,124,232
Net position:		
Net investment in capital assets	(65,176,075)	(68,163,047)
Restricted	10,883,955	10,443,804
Unrestricted	 10,586,605	 7,835,489
Total net position	\$ (43,705,515)	\$ (49,883,754)

The total net position of the District increased by \$6,178,239, or about 12 percent. The majority of the increase in net position is related to tax revenues intended to pay principal on the District's bonded indebtedness, which is shown as long-term liabilities in the government-wide financial statements. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

At May 31, 2023, the net investment in capital assets was \$(65,176,075). This amount was negative because not all expenditures from long-term debt were for the acquisition of capital assets. Within Harris County, the county government assumes the maintenance and other incidents of ownership of most storm sewer facilities constructed by the District. Accordingly, these assets are not recorded in the financial statements of the District.

	2023	2022
Revenues:		
Property taxes	\$ 13,788,430	\$ 12,844,514
Charges for services	5,996,094	5,156,658
Other revenues	845,542	162,244
Total revenues	20,630,066	18,163,416
Expenses:		
Services	7,327,715	6,652,829
Conveyance of capital assets	99,208	-
Connection fees	-	3,677,290
Depreciation	3,088,645	3,068,168
Debt service	3,936,259	4,505,357
Total expenses	14,451,827	17,903,644
Change in net position	6,178,239	259,772
Net position, beginning of year	(49,883,754)	(50,143,526)
Net position, end of year	\$ (43,705,515)	\$ (49,883,754)

Summary of Changes in Net Position

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended May 31, 2023, were \$22,823,307, an increase of \$2,904,098 from the prior year.

The general fund's fund balance increased by \$2,723,694, primarily due to property taxes and service revenues exceeding service operation expenditures.

The debt service fund's fund balance increased by \$254,561 due to property tax revenues and investment income exceeding bond principal and interest requirements.

The capital projects fund's fund balance decreased by \$74,157, primarily due to capital outlay expenditures exceeding investment income.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to water service and regional water fee revenues being greater than anticipated and purchased services and repairs and maintenance expenditures being less than anticipated. The fund balance as of May 31, 2023, was expected to be \$9,822,962 and the actual end-of-year fund balance was \$10,527,378.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

	 2023	2022
Land and improvements	\$ 3,920,093	\$ 3,920,093
Water facilities	9,888,440	10,151,838
Wastewater facilities	15,448,905	15,791,132
Drainage facilities	793,999	831,484
Road facilities	25,995,078	27,086,342
Recreational facilities	 7,073,766	 7,936,201
Total capital assets	\$ 63,120,281	\$ 65,717,090

Capital Assets (Net of Accumulated Depreciation)

During the current year, additions to capital assets were as follows:

Water and wastewater utilities to serve Bridgeland Creek Parkway utility	
extension	\$ 162,495
Paving facilities to serve Bridgeland Creek Parkway utility extension	321,376
Replace duck pond aerator	 7,965
Total additions to capital assets	\$ 491,836

The developer within the District has constructed water, sewer and drainage facilities, recreational facilities and road facilities on behalf of the District under the terms of contracts with the District. The District has agreed to purchase these facilities from the proceeds of future bond issues subject to the approval of the Commission, if required. As of May 31, 2023, a liability for developer-constructed capital assets of \$13,853,116 was recorded in the government-wide financial statements.

Debt

The changes in the debt position of the District during the fiscal year ended May 31, 2023, are as follows:

Long-term debt payable, beginning of year	\$ 137,949,780
Increases in long-term debt	583,080
Decreases in long-term debt	 (6,452,636)
Long-term debt payable, end of year	\$ 132,080,224

At May 31, 2023, the District had \$99,535,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving water, sanitary sewer and drainage systems within the District, \$5,425,000 for financing and constructing recreational facilities, and \$4,255,000 for financing and constructing roads.

The District's bonds carry underlying ratings of "BBB+" from Standard & Poor's (S&P) or "A2" from Moody's Investors Service (Moody's). The Series 2014A, Series 2016 road, Series 2017, Series 2017A park, Series 2017B refunding, Series 2018, Series 2018A park, Series 2018 road, Series 2019 park refunding, Series 2020A park, Series 2021 park refunding and Series 2021A bonds carry a "AA" rating from S&P by virtue of bond insurance issued by Build America Mutual Assurance Company. The Series 2014 road, Series 2020 bonds carry a "AA" rating from S&P and an "A1" rating from Moody's (except for the Series 2015A bonds) by virtue of bond insurance issued by Assured Guaranty Municipal Corp (AGMC).

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent. Effective December 1, 2017, prior to annexation, the City would be required to hold an election in the District whereby the qualified voters of the District would approve the annexation. If the District is annexed, the City must assume the District's assets and obligations (including the bonded indebtedness) and abolish the District within 90 days.

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 419 (the District) was created by an order of the Texas Commission on Environmental Quality (the Commission), effective February 21, 2005, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater and drainage facilities and to provide such facilities and services to the customers of the District. The District is also authorized by the Texas Water Code, Chapter 49, to provide recreational facilities and has acquired the authority to provide road facilities under the Texas Water Code, Chapter 54.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances – Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable - Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal

district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Revenues recognized during the fiscal year ended May 31, 2023, include collections during the current period or within 60 days of year-end related to the 2022 and prior years' tax levies.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended May 31, 2023, the 2022 tax levy is considered earned during the current fiscal year. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45
Drainage facilities	10-45
Recreational facilities	15-20
Road facilities	20-45

Deferred Amount on Debt Refundings

In the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt in a debt refunding is deferred and amortized to interest expense using the effective interest rate method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Such amounts are classified as deferred outflows or inflows of resources.

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 63,120,281
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund	
financial statements.	268,157
Penalty and interest on delinquent taxes is not receivable in the current	
period and is not reported in the funds.	85,438

Deferred amount on debt refundings for governmental activities are not financial resources and are not reported in the funds.	\$ 2,993,776
Accrued interest on long-term liabilities is not payable with current financial resources and is not reported in the funds.	(916,250)
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	 (132,080,224)
Adjustment to fund balances to arrive at net position.	\$ (66,528,822)

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balances in the governmental funds statement of revenues, expenditures and changes in fund balances because:

Change in fund balances.	\$ 2,904,098
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense, conveyed capital assets and noncapitalized costs exceeded capital outlay	(2.170.890)
expenditures in the current period.	(3,179,889)
Governmental funds report principal payments on debt as expenditures. These transactions, however, do not have any effect on net position.	6,475,000
Revenues that do not provide current financial resources are not reported as revenues for the funds, but are reported as revenues in the statement of activities.	128,908
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as	(140.050)
expenditures in governmental funds.	 (149,878)
Change in net position of governmental activities.	\$ 6,178,239

Note 2: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At May 31, 2023, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in Texas CLASS, an external investment pool that is not registered with the Securities and Exchange Commission. A Board of Trustees, elected by the participants, has oversight of Texas CLASS. The District's investments may be redeemed at any time. Texas CLASS attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques and limits its investments in any issuer to the top two ratings issued by nationally recognized statistical rating organizations. The District's investments in Texas CLASS are reported at net asset value.

		Less Than						
Туре	Fair Value11-56-10					10		
Texas CLASS	<u>\$ 21,633,987</u>	<u>\$ 21,633,987</u>	<u>\$</u>	<u>0</u> <u>\$</u>	0	<u>\$0</u>		

At May 31, 2023, the District had the following investments and maturities:

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At May 31, 2023, the District's investments in Texas CLASS were rated "AAAm" by Standard & Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet at May 31, 2023, as follows:

Carrying value:	
Deposits	\$ 1,478,148
Investments	 21,633,987
Total	\$ 23,112,135
Included in the following statement of net position captions:	
Cash	\$ 763,148
Certificates of deposit	715,000
Short-term investments	 21,633,987
Total	\$ 23,112,135

Investment Income

Investment income of \$613,739 for the year ended May 31, 2023, consisted of interest income.

Fair Value Measurements

The District has the following recurring fair value measurements as of May 31, 2023:

• Pooled investments of \$21,633,987 are valued at fair value per share of the pool's underlying portfolio.

Note 3: Capital Assets

A summary of changes in capital assets for the year ended May 31, 2023, is presented below:

Governmental Activities	Balances, Beginning of Year	Balances, End of Year		
Capital assets, non-depreciable:				
Land and improvements	\$ 3,920,093	\$ 0	\$ 3,920,093	
Capital assets, depreciable:

Annual Debt Service Requirements

The following schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds outstanding at May 31, 2023.

Year	Р	Principal		Interest		Total		
2024	\$	6,560,000	\$	3,577,930	\$	10,137,930		
2025		6,695,000		3,388,413		10,083,413		
2026		6,745,000		3,195,922		9,940,922		
2027		6,790,000		3,007,288		9,797,288		
2028		6,875,000		2,821,188		9,696,188		
2029-2033		35,395,000		10,998,741		46,393,741		
2034-2038		31,595,000		5,492,863		37,087,863		
2039-2043		18,280,000		1,322,026		19,602,026		
Total	\$	118,935,000	\$	33,804,371	\$	152,739,371		

The bonds are payable from the proceeds of an ad valorem tax levied upon all property within the District subject to taxation, without limitation as to rate or amount.

Water, sewer and drainage facilities	\$ 211,320,000
Recreational facilities	20,360,000
Road facilities	37,500,000
Bonds sold:	
Water, sewer and drainage facilities	111,785,000
Recreational facilities	14,935,000
Road facilities	33,245,000
Refunding bonds voted	269,180,000
Refunding bonds authorization used	4,320,000

Due to Developer

The developer of the District has constructed underground utilities, recreational facilities and road facilities on behalf of the District. The District is maintaining and operating the facilities and has agreed to reimburse the developer for these construction costs and interest to the extent approved by the Commission, if required, from the proceeds of future bond sales. The District's engineer estimates reimbursable costs for completed projects are \$13,853,116, including approximately \$2,276,960 of water, sewer and drainage projects, and recreational facilities, and approximately \$11,576,156 of road projects. Recreational facilities bonds are limited in issuance to 3 percent of the taxable value of property within the District. These amounts have been recorded in the financial statements as long-term liabilities.

Note 5: Significant Bond Order and Commission Requirements

The Bond Orders require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended May 31, 2023, the District levied an ad valorem debt service tax at the rate of \$0.6700 per \$100 of assessed valuation, which resulted in a tax levy of \$10,400,268 on the taxable valuation of \$1,552,280,478 for the 2022 tax year. The interest and principal requirements for bonds to be paid from the tax revenues and available resources are \$8,101,010 of which \$2,068,655 has been paid and \$6,032,355 is due September 1, 2023. The interest and principal requirements for road bonds to be paid from the tax revenues and available resources are \$2,130,289 of which \$400,144 has been paid and \$1,730,145 is due September 1, 2023.

Note 6: Maintenance Taxes

At an election held May 7, 2005, voters authorized a general operations and maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended May 31, 2023, the District levied an ad valorem general operations and maintenance tax at the rate of \$0.2200 per \$100 of assessed valuation, which resulted in a tax levy of \$3,415,013 on the taxable valuation of \$1,552,280,478 for the 2022 tax year. The maintenance tax is being used by the general fund to pay general expenditures of operating the District.

At an election held May 7, 2005, voters authorized a recreational facilities maintenance tax not to exceed \$0.10 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended May 31, 2023, the District did not levy an ad valorem recreational facilities maintenance tax.

Note 7: Contract With Other District

The District is served by a regional water supply and wastewater treatment system that is owned and operated by Harris County Municipal Utility District No. 418 (District No. 418), in its capacity as "Master District," pursuant to that certain Contract for Financing, Operation and Maintenance of Master Water and Sanitary Sewer Facilities, dated August 1, 2006, as amended from time to time, by and among District No. 418, Harris County Municipal Utility District Nos. 489, 490, 491, 492 and 493, and the District. District No. 418 will acquire, construct, own, operate and/or maintain central water supply and wastewater treatment facilities, as well as major trunk lines related to said facilities necessary to serve itself, the District and other municipal utility districts that comprise the Bridgeland community.

District No. 418 charges a connection charge to pay for the costs of constructing regional facilities. The current charge is \$4,913 per equivalent single-family connection for water supply capacity and \$3,527 for wastewater treatment capacity. District No. 418 also charges a wastewater collection connection charge, which varies based on the location of the area to be served by the system, ranging

from \$0 to \$5,217 per equivalent single-family connection. These charges are subject to adjustment annually. Through May 31, 2023, the District has been credited with water and sewer connections with a value of \$31,066,207. In addition, District No. 418 is authorized, in certain circumstances, to issue contract revenue bonds sufficient to complete acquisition and construction of the facilities, as needed, to serve all districts in the service area. Once bonds are issued, each participating district would contribute to the debt service requirements of the bonds. The District's voters have approved such a contract-revenue tax proposition.

The contract requires that operations and maintenance costs and a percentage of the administrative costs be paid to the master district on a monthly basis. Additionally, each participant is required to advance funds to the master district to create a reserve for the benefit of such participant in an amount equal to the participant's projected share of operations and maintenance costs for a two-month period commencing at the beginning of the master district's fiscal year (currently June 1). During the current year, the District incurred operating charges of \$2,967,414 for water supply and \$925,977 for wastewater services. In addition, the District has contributed \$443,667 for its share of the water supply reserve and \$150,413 for the wastewater treatment reserve. The reserves are subject to adjustment annually.

Note 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Harris County Municipal Utility District No. 419 Notes to Required Supplementary Information May 31, 2023

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was amended during fiscal 2023.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule – General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.
